Limited basis

## Museum opens July 3

The news many people announced Monday night, have been waiting to hear was Opening of the Medina

County Museum on a limited basis has been scheduled for the Fourth of July weekend.

Nora Winkler and Gladys Lindeburg are in charge of the displays which will be shown the public and have issued appeals for items to go in the Museum.

Plans for providing cooling in the three west rooms also were announced Monday night. And it was reported that windows will be covered with hail damage wire to protect panes and help secure the building.

"We call this our Summer 1971 opening," Miss Winkler told the Board. "We want to have some type of schedule on a consistent basis for the rest of the summer. After that time we will decide on other arrangements."

The two display chairmen issued an appeal for items in the following categories:

WESTERN--barbed wire collection (Fritz Leinweber has agreed to display his extensive collection), saddles and accessories, spurs, chaps, etc., branding equipment (to go with the giant branding iron board made by Sherille Stroud of Devine), pictures of early cattlemen.

FASHION--old garments in

usable condition depicting various periods: pioneer, gay nineties, the roaring twenties, the war periods such as Spanish and Mexican costumes, German costumes led-erhosen, etc., old fashion car-

More space planned for clerk

There'll be some changes made at the Medina County Courthouse once bids are let on two jobs approved by the Commissioners Court.

The Court has called for bids on rewiring the entire Courthouse and for remodeling and enlarging District Clerk Francis Bohl's office.

The latter job will be accomplished by extending the present office into space now included in the District Court room. It will enable the clerk to have adequate filing space and provide better services to the Court when it is in session.

Bids will be opened on both projects at 4 p.m. July 23 in the office of County Judge Jerome Decker.

alog, clothing patterns, swatches of material and items used in decorating fabric.

YESTERYEAR'S HOUSE-WIFE TOOLS--any item used

to prepare a meal: butter churn, old mixing bowls, handmade cutware, pepper mills, place settings of dishes.

NOSTALGIA--postcards, autograph books, photograph albums.

A committee chairman to seek volunteer help in keeping the Museum open on a limited time scheduled will be appointed very soon.

The Museum will have no specific charge, but will have a contribution box for visitors to use if they desire.

Also featured will be a sales area which will feature Museum Plates, Historical Sketches, Decoupages (there were a few left from Museum Day), the book "Ripples from Medina Lake" (there are some 25 of these left and more can be obtained), and perhaps other items.

Persons interested in donating items for the Museum, either on a loan basis or permanently, may contact Mrs. Lindeburg at 426-2820 or Miss Winkler at 426-3655.

D'Hanis: This little community beaming with pride over its athletes in baseball and football, rejoiced when one of its "boys", Walt Rothe, University of Texas' slugging outfielder, was selected as The Associated Press Southwest Conference Baseball Player of the Year in a poll of league coaches.

Rothe, 22, 6-2, 195, and a Senior, hit a torrid, .485, and played right field. His coach, Cliff Gustafson, was named Coach of the Year by his fellow mentors.

Signs with Montreal Expos on June 10 Walt signed

with the Montreal Expos of the National League. He was signed up by Red Murff and Tom Bridges, both official scouts for the Expos. Walt left the next day to join his team.

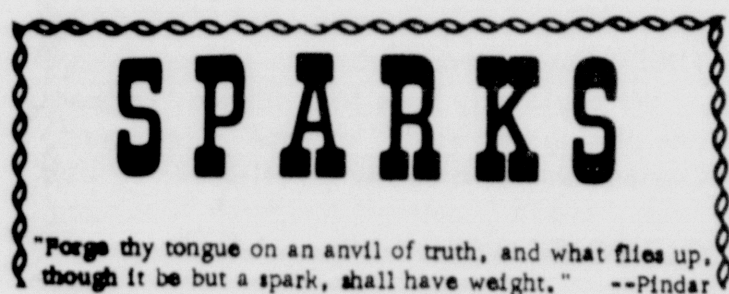

Native of D'Hanis Walt is the son of Mr. and Mrs. Bonnard Rothe, who are members of the local Holy Cross Catholic Church. He was born on September 14, 1948, baptized in Holy Cross Church on October 16, 1948, by the Rev. Henry V. Hug, pastor; received his First Holy Communion and Confirmation in this church also. He served as an Altar Boy for ten years from the time he was in the second grade until he graduated from D'Hanis High School in 1967. He was instructed to serve at the altar by Rev. Oswald B. Kahllich, pastor. He has the longest record of serving and had to come some 15 miles to do so. His parents

live on a ranch that far north of D'Hanis.

Mr. Baseball

Walt's parents, Mr. and Mrs. Bonnard Rothe, have been connected with the game of baseball for over 25 years in assisting with the Highway 90 League, Little League and local high school teams. Bonnard Rothe played as a youth all over Medina County. For his many years in baseball, he was named "Mr. Baseball of Medina County" in 1969 when he and Mrs. Rothe received, jointly, the "Pro Deo et Juventute - For God and Youth" Medal Award from Archbishop Francis J. Furey, D.D., at the CYO Youth Leaders' Banquet, San Antonio.

At present Rothe, with the help of Charles Hood, is coaching the D'Hanis ball club in the Senior Little League.

## CBG meets, elects five new officers

New officers were elected during the Hondo Citizens for Better Government regular monthly meeting Thursday night June 10 at the Athletic Hall.

Jesus Rodriguez was named chairman with the following officers serving with him: Tom E. Santos, vice-chairman; James Castillo, secretary; Ruben Alvarado, treasurer; and Alfredo Tapia, door-

keeper.

Seven new members were accepted at the end of the meeting. They were Felipe Cortez, Tony Mendoza, Fred T. Walls, Trini Cuellar, Celso Gonzales, Rudy Guedea and his wife, Irma Guedea. Memberships are being accepted at any time and anyone desiring to join can do so by contacting any of the officers.

Among the business discussed was a report on the can-

cellation of Tuesday night's City Council meeting because of a lack of a quorum. Tom E. Santos and Jesus Rodriguez have promised the membership they will attend all regularly scheduled council meetings in order to represent the group.

T. A. Lopez told the group that there is an immediate desperate need for jobs in the Hondo area. "There are at present many family

men who can't secure permanent jobs unless they leave town, sometimes leaving large families behind," he said.

"We must try to bring in some sort of job program to train this force of men so that they can actively compete for some of the better jobs. Men without a trade cannot move forward." He says he hopes this group (Hondo CBG) can bring some sort of federally-

assisted job training program in order to attract, at a later time, new companies into the Hondo area.

T. A. Lopez stepped down as chairman of the CBG, because of a new job obligation as a representative with the International Brotherhood of Operative Pottery, AFL - CIO, CLC, which causes him to be away from town on union business at different and odd times.

## Camping time is swimming time

For these Camp Fire Girls, one of the best things about summer time at Camp Mary Louise is swimming time. In other years, the girls have taken to the waters of Hondo Creek near the

camp, but this summer they're traveling to one of the crossings on FM 462. But wherever they go to get into the water, swim time is fun time.

## 49th district workable but not properly drawn

By John H. Poerner, State Representative, Dist. 49

## RE-DISTRICTING

Re-Districting for congressional, State Senate, and State Representatives was handled in a slow and cumbersome manner. I personally think it should have received the attention of the Legislature in March rather than in the last week of May so that the people could have voiced their approval or rejection of a particular plan. Needless to say, we could have fared much worse. I can assure you I did everything in my power to protect us for the next ten years.

**Congressional:** It was only in the closing hours of the conference committee deliberation that Uvalde County was placed in O. C. Fisher's District. With that accomplished, the Congressional Districts superimposed over the 49th District will remain exactly as they have been for the past ten years. Uvalde County in O. C. Fisher's District with Medina, Frio, Zavala, and Dimmit in Congressman Kazen's District.

**State Senatorial:** This chore was not completed by the Legislature so it will be performed by the Re-Districting Commission to be composed of the Lt. Governor, Speaker of the House, Comptroller of Public Accounts, Attorney General and the Commissioner of the General Land Office.

**State Representatives' Districts:** The 49th District, which has been composed of Medina, Uvalde, Zavala, Frio and Dimmit Counties and comprising of approximately 69,000 people, fell short of the 73,400 required number. My first choice to the Committee was to include La Salle County of 5,000, thereby making the District two counties wide and three counties long. This would have meant a complete rural District and would have been in perfect rectangular form. The members were asked to place a second and third choice so my second choice was to not include La Salle County and to obtain approximately 4000 or 5000 in Bexar County (since this was the only county adjoining the 49th District that

had an average) lying immediately adjacent to Medina County and being that group of people who normally shop and attend church in the Castroville-LaCoste area. I felt that I am presently communicating with this group of people through the news media of Medina County and their political philosophy has been identical with that of the 49th District.

The final report from the Committee removed Dimmit County and placed it in with the District presently held by Rep. Newton from Beeville. It also removed the Western portion of Uvalde County (5300 people) and placed them in the Del Rio District presently held by Rep. Doran. It then placed approximately 19,000 people in Bexar County in the 49th District, extending from the North side of Bexar County, traversing from new U.T. S.A. site and generally following Loop 410 down to the MacDonna area. I strongly opposed this plan since it is a potential growth area of San Antonio and it would be conceivable, in the next ten years, for this area to contain 100,000 people and "out vote" the rural area of the 49th District. I offered an amendment to confine the Bexar County area to South of Highway 90, adjoining Loop 410 (with the exception of 10,000 people inside Loop 410 in the Valley-High area) and bounded on the South by Farm Rd. 2536 (Pearsall Rd.).

This new area contains a considerable amount of farm and ranch area along with the Skyrise Apartment Building just East of Medina Base and also includes Gary Aircraft Corporation, Nelson Rd. Plant. A majority of the people are connected with the military, in one form or another, and it is expected that the area's growth potential is orientated toward the philosophy of the 49th District rather than toward the metropolitan.

The disgrace of re-districting is the gerry-mandering and division of Uvalde County. There is absolutely no excuse for dividing this County since it is surrounded by counties of small population and in gen-

eral could have arrived at a better and more local plan than that adopted. For example, Rep. Doran will represent that portion of Uvalde County lying West of U.S. Highway 83, starting from the Zavala County line Northward to approximately S. Grove St. Then up S. Grove St. to the intersection with the South line of Robb Elementary School. Then Westward along the South line of Robb Elementary School and following the city limits line of F.M. Highway 1435. Then going Northward on F.M. Highway 1435 to the intersection with W. Garden St. Then Eastward along Garden St. to a back street in the city limits just North of Florence St. Then Northward and following the Western city limits to the intersection of Oppenheimer and Hood Street. Then Eastward along Oppenheimer to the intersection with North Camp St. Then Northward along North Camp St. to the intersection with U.S. Highway 83. Then Northward along U.S. Highway 83 to its point of intersection with U.S. Highway 1051 (the Reagan Wells Rd.). Then up Highway 1051 to the intersection with Uvalde-Real County line.

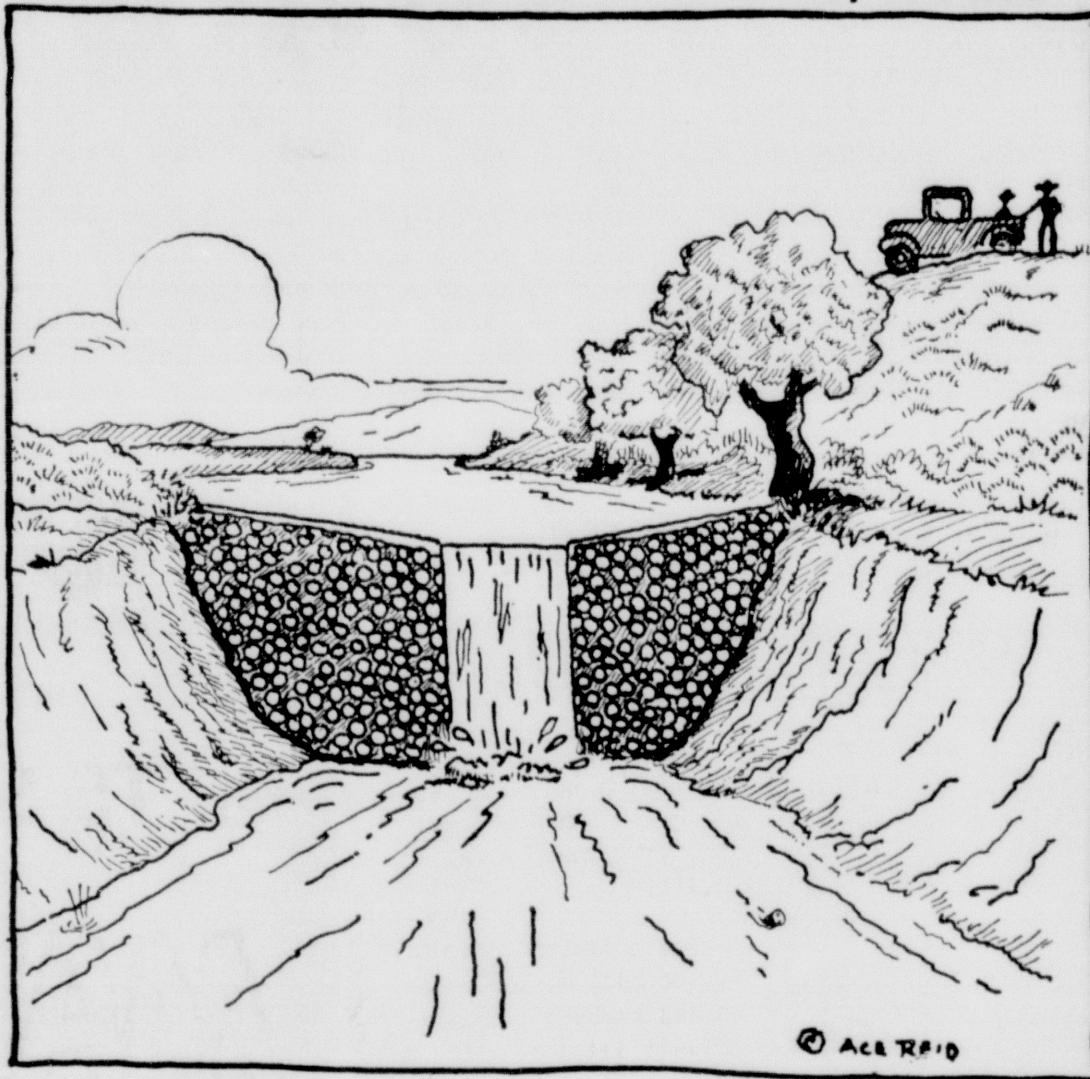

The above description dividing Uvalde County may not be completely accurate as the maps in the Legislative Council are most vague and it is the best description I can convey to you based on inadequate maps.

In summary, I consider the 49th District to be workable even though it is not properly drawn and in the best interests of the people. As usual, in politics and government we will do the best with what we have and strive to make it as workable as possible.

I have now returned to my Hondo office and I will be happy to discuss any portion of the past Session of the Legislature with anyone or any civic organization if you will call me at my Hondo office. This has been a most difficult and trying five months just past and it is certainly a relief to be back home.

## Quick sleep due stray dogs

Councilmen agreed Tuesday night to dust off Hondo's tranquilizer gun in an effort to control an ever increasing number of dogs running the city's streets.

Chief of Police Jerry Williamson said numerous complaints are coming in, but that the city's dog catcher is unable to catch the canines. "Believe it or not," he told councilmen, "those dogs

know what that yellow truck is."

Councilmen agreed to allow the tranquilizer gun to be used only by members of the police department.

Some councilmen expressed concern over the city's liability in the event a dog is killed by the tranquilizer gun.

Asked about the problem, City Attorney Hugh Meyer said that if a dog were killed by the gun, the owner

came to claim the dog, police should arrest the owner.

"It's a criminal act," he said, "to permit a dog to run at large."

Asked if there were any danger of hitting a child, Williamson said, "Let's put it this way; you let us carry 357 magnum on our hips. If we're responsible enough to carry those, we know how to judge (when it's safe to use the tranquilizer gun)."

## Annual sausage supper scheduled by firemen

Eating time is just around the corner, if one stops and considers the first big annual Sausage Supper will be sponsored June 26 by the Hondo Volunteer Fire Department.

There'll be plenty to eat at Hondo City Park beginning at 6 p.m. on that date, which is a Saturday, incidentally. And it won't cost a lot either. Adult plates will be \$1.50 and Children can eat for only \$1.00. In fact, if anyone wants to stand in line again they can have all they want.

There will be plates to go for those who want to stand in line at all.

And remember the event is not only for the purpose of eating excellent food. Proceeds from this supper will go toward the purchase of a new fire truck for the department.

Cost of the truck will run approximately \$15,000 and contributions will be accepted by the department.

"The truck we have now was bought in 1942," a Fire Department spokesman said. "And we need a more modern truck to provide protection for the homes and businesses in Hondo and the surrounding area."

exact--Frank has been a familiar and well-liked figure around Hondo High School.

But he finally turned in the many tools of his trade and called it quits. "It's been a wonderful association," he said the other day when visiting the Anvil Herald office. "Mr. Barry has been the best boss a person could ever have," he declared. "And not only that, he's a good man to go with it."

Frank went to work permanently at the school in 1935, although Mr. Barry says he worked for them "when needed off and on for several years prior to then." He was known as the "outside" man since he took great pains to keep Barry Field and the baseball field in great shape always. Yet, he did many other jobs at the school through the years.

Early in his career, Frank traveled with the football and baseball teams. For years he took charge of the Owl mascot and cared for it at home and away games.

Now Frank has his retirement papers and received a royal "going away" party and an easy chair. But no one really expects him to settle back in that easy chair and do nothing. Frank Holden is not like that.

And come Fall and football season I bet he's back at Barry Field watching the Owls and silently giving the grass and makings a good "once over."

## A FAITHFUL READER

Mrs. Winnie Braden, our front office girl who seems to know everyone in Hondo and many other places, received a note this week that made all our hearts glad. From Charlie Berry (that's C. H.) it read:

"Hi Winnie. Just a little note to tell you that I've been reading the Herald for more than 50 years."

That is what we call a faithful reader of the old hometown paper. And we wonder if we have any more who have followed Hondo that long through the pages of the Herald?

## THANKS, SIS McDADE

If you have never seen the following quote sent to me from Pennsylvania by our own Sis McDade then I hope you will enjoy it as much as I did:

"PUBLIC NOTICE . . . the generation gap will be closed on account of LOVE FATHER'S DAY JUNE 20."

We could only hope that this would be one closing that could become permanent. Our nation would be the beneficiary.

## OLD POSTCARDS

Several weeks ago we mentioned a penny postcard dated 1900 and discussing a teachers meeting at Upper Quihi. So Bill Guadian goes us one further. He brings by two penny postcards, both dated in 1896 from Baird, Texas. One was to W. A. Cooner from E. R. Santor. The other was from G. H. Saryle about assessment of taxes amounting to \$35.45.

Bill, perhaps these could be placed in the Medina County Museum.

## SPEAKING OF . . .

On the subject of the Museum, I would like to draw your attention to the front page story on plans to open the institution on a limited basis the weekend of July 4. Some items needed for display are listed in the story and your cooperation will definitely be appreciated.

## AN APPROPRIATE NOTE

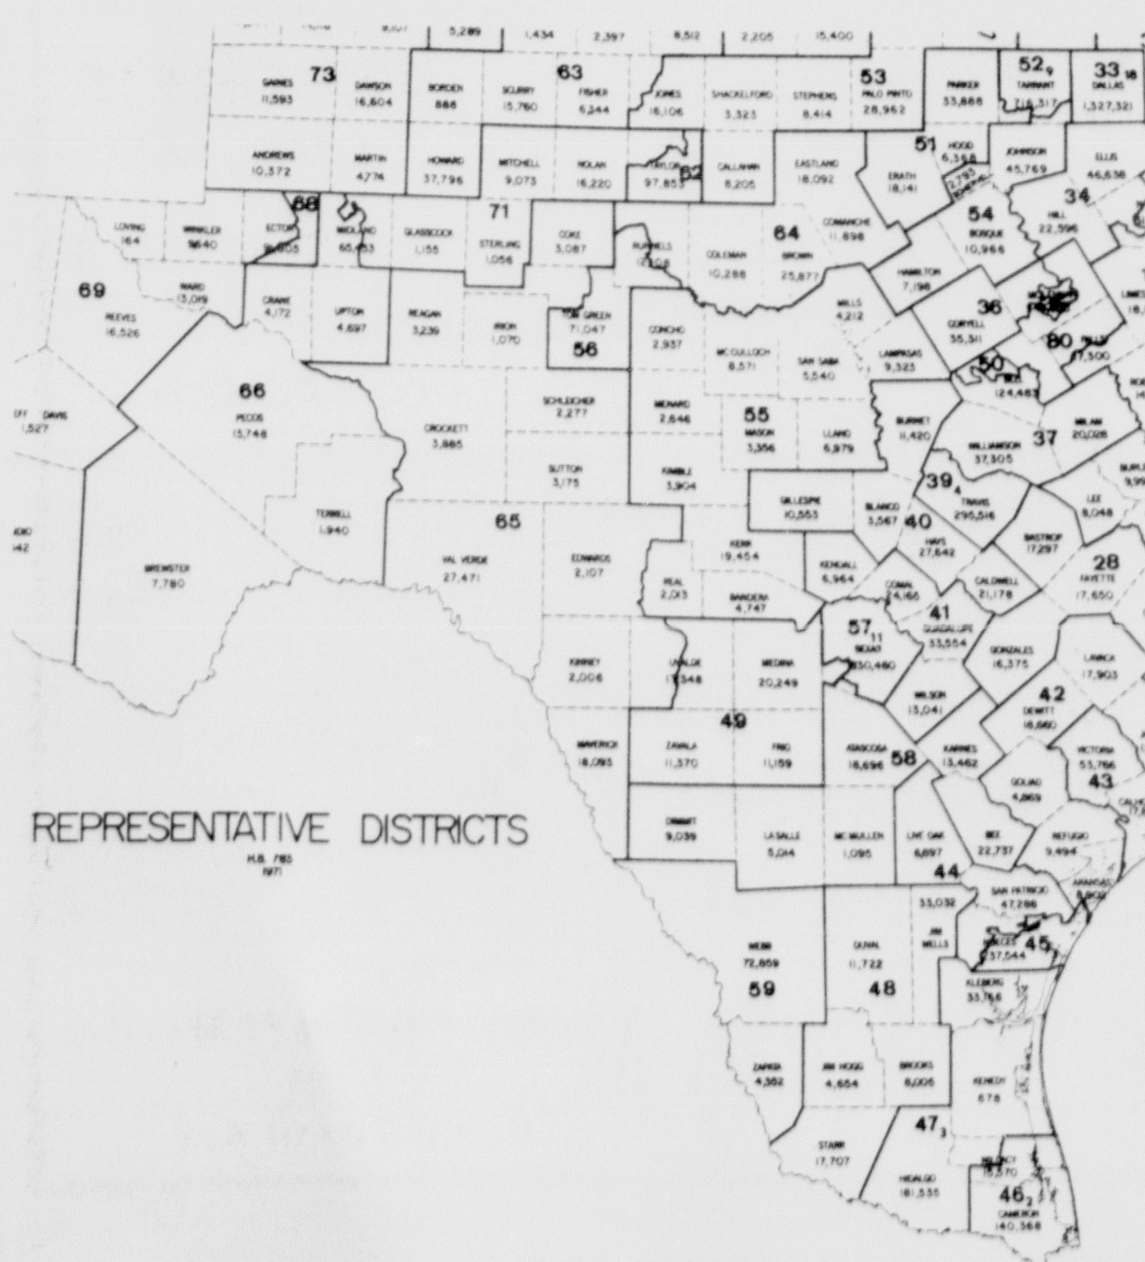

Sometime ago, and I can't remember when, someone, and I can't remember who, gave me the top off a note pad they liked very much. Across the top it stated in bold, black print: "PSYCHO PAD". Then right below in red letters: "Do not write below this line."

Now, my question is: "If the person who gave me this appropriate (to me) moment reads this, did you do so because you thought it fit, or did you want some of them printed?"

I can't remember.

# County bans spike buck killing

Using authority granted by a bill written by Rep. John Poerner, Medina County Commissioners Court Monday told the Parks and Wildlife Commission that there will be no shooting of spike bucks in Medina County this year.

Each year the Commission, through County Game Warden August Timmerman, presents a proclamation of game regulations to the Commissioners Court. Up to 1968 the County had a right to reject all of the proclamation. Then in

1968 Medina County was given the right to reject any portion of the proclamation, but there were no teeth in the law to make the Commission follow the County's suggestions.

Under Poerner's bill, the County no longer recommends to the Commission. It can tell them what is to be done on any portion of the proclamation. However, should the County reject all portions of the proclamation, the conditions will revert back to last year's regulations.

Monday, Commissioners voted to eliminate the shooting of spike buck. So this year it will be illegal to shoot a male deer that does not have three or more points.

An old problem that has reared its smelly head for years was finally put to rest by the Court, in a sense that

is. It was decided that cost of land sites for rural garbage dumps would be paid for from the General Fund and then each commissioner would provide the fence, dig the ditches, build the road and maintain the dump or dumps from Precinct funds.

In connection with this, the

Court approved \$4100 for the purchase of a site at Yancey and one at D'Hanis and returned \$2950 to Commissioner Hillmer Mangold's Precinct Fund for monies he has spent on dumps at Castroville and LaCoste.

In other action, the Court approved the purchase of a set of scales for the County Agent. These scales are used throughout the county by the Agent and FFA groups.

Discussed action on condemnation proceedings on a-

bout 4-1/2 acres of land along Highway 16 in northern Medina County.

Confirmed the appointment of John Talley of Castroville to the Hospital Board. He replaces Louis Hart, Jr.

Heard a report from Coun-

ty Treasurer Milton Mechler on current financial conditions. Mechler reported the County had a balance of \$363,123.22 as of May 31, 1971. This included \$125,000.00 on time deposits at Hondo National Bank.

map in various parts of the world and Medina Agriculture Products is certainly helping out with their "Medina" soil conditioner.

A recent article in the Rice Journal, a world-wide publication, brought "Medina" to the attention of growers the world over. Titled "New Hope for Troubled Soils", the article also brought correspondence from many nations.

Letters came from the Philippines, Costa Rica, France, Thailand, Canada, Hawaii and Central America. The Hondo based company also heard from Komatipoort, South Africa and Kuching, Sarawak, East Malaysia.

Ironically, "Medina" products, which first hit the market from Hondo back in 1961, the product is not as well accepted and widely used locally as it is over the world. It is used extensively in the states surrounding Texas and its fame is spreading to other parts of the nation as well as the world, as the above info reveals.

We wish them continued success for that means another growing industry for Hondo and Medina County.

## ANOTHER VISITOR

John Hughes from Frackville, Pennsylvania, or that was his birthplace, visited Hondo several weeks ago.

John is another "former Hondo resident by virtue of being stationed at Hondo Air Base," and he came back to visit and meet friends he met here in the early 1940's.

He even got married in Hondo, saying "I do" with the former Patricia Lang of Fredericksburg. Patricia worked at Edgar Stiegler's Favorite Cafe, and they tied the knot on November 25, 1942.

John was stationed here for two and a half years and on his 1971 visit he left this message at the Anvil Herald: "From one Yankee to a Texan, this is still a wonderful town!"

The Hughes now live at 1910 Kenny Ave., Austin, and John invites correspondence from anyone who remembers them and would like to drop a line.

## FAST DECISIONS

Hassles are still going on about the drought disaster relief in Texas, especially in this area. So the item Cappy Heyen found in the National Farmers Organization publication still fits. It dealt with the visit by Secretary of Agriculture Harding when he made a flying trip to Devine, stayed about 35 minutes and went back to Washington to report "things look a little bad." But he did not go all out and say the area was in the throes of one of the worst droughts in history. And this made one farmer comment: "What a heck of a way to spend the taxpayers' money--fly 3,000 miles, look at an area (or one small part of it) for 30 minutes and then come to the conclusion that he did."

And even after his visit, it took months to get any kind of relief, and that is inadequate. Gov. Preston Smith is still on the Nixon Administration for "dragging its feet."

Yet, I read a story from the State Department this week that said that within two hours after a request for aid to refugees from Pakistan, the United States had cleared \$500,000 through the U.N.

The question has been asked before, but I will ask it again: "Why in the heck can't our federal government devise some plan to help our own people as quickly in times of dire need?"

## City electric usage rising

Hondo city electric customers used nearly 280,000 KWH more electricity in May this year than in May, 1970. The increase meant an additional \$9,827.61 in revenue to the city.

Fred Johnson, city electric superintendent, gave the figures to councilmen Tuesday night. Net billing for the month, he said, was \$38,504.38.

Commercial accounts, he said, used 22,451 KWH less in May, 1971 than in May, 1970, but revenue was up \$33,135.27.

The increased revenue, Johnson said, was due to a reclassification of a number of former industrial users to commercial rates, plus the installation of demand meters.

## Criminal trials are set Monday

Nine criminal cases are scheduled for trial Monday in district court here before Judge Ross E. Doughty of Uvalde.

Those scheduled for trial are the offenses with which they are charged are:

Victor Van Medley, killing another while driving while intoxicated; Jess V. Mendoza, Jr., rape; Jose M. Guajardo and Clemente Lopez, two counts of burglary.

Roland S. Tello, robbery by assault; Raul Valle, carrying a pistol in a bar; Manuel Frias, burglary; Woodrow S. Richardson, burglary; James M. Moczygemba, Carl L. Byrom, Freddie K. Stabenow, robbery by assault.

District Court Clerk Francis Bohl said defendants indicted by the June grand jury will probably be arraigned before Judge Doughty Monday, June 28.

Bohl said a panel of 40 jurors will be called for the June 21 trials.

## Newstreet signs due

Hondo street corners will soon be sporting new street signs.

The city has received and begun using its new sign kit to turn out large reflective street signs with white letters on a blue background.

Bright and easy to read, the new signs will replace the current markers which in many cases are rusted and almost illegible.

## Museum

Officers for the Medina County Museum will be elected in a special meeting called for 8 p.m. Monday, June 21, at the Medina Electric Cooperative building.

Four new directors were elected by the membership at the June 14 meeting. These included: John Wentz, Douglas Bohmfalk and Tony Mendoza, re-elected, and Frank Graff, new director.

All directors are urged to attend since the membership Monday night adopted a rule that three consecutive misses of regular meetings without valid reasons would mean a dismissal from the board. The rule goes into effect with the regular July meeting.

## Pickthall-Yong Ae

Miss Han Yong Ae of Incheon City, Korea became the bride of William R. Pickthall of Hondo in vows recited June 3, 1971 at the Christian Church in Sabinal. Pastor Dan Walker performed the ceremony.

The bride is the daughter

of Mr. and Mrs. Cho Kong He of Korea and the groom is the son of Mrs. Martha Pickthall of Hondo and the late Mr. Pickthall.

Mrs. Ann Spiker of Hondo, sister of the groom, was the bridal attendant.

The groom is employed at Brown's Nursing Center.

## Cooley-Reynolds

Parents of the couple are Mr. and Mrs. Gerald B. Reynolds of Devine and Mr. and Mrs. J. K. Cooley, Natalia.

Mrs. Franklin Pullin played nuptial music on the organ.

The bride, given in marriage by her father, wore a floor-length gown of white Chantilly lace over peau de soie with a floor-length veil cascading from a peau de soie bow. For something borrowed she wore pearl earrings that belonged to her sister, Miss Mary Evelyn Reynolds. She carried a white carnation bouquet centered with an orchid.

Miss Mary Evelyn Reynolds

Thomas Wesley Miller of Natalia was best man. Jerry and James Reynolds, twin brothers of the bride, served as ushers and candlelighters. Ricky Cooley, brother of the groom, presided at the bride's table.

## Ben Barnes announces for governor

Lieutenant Governor Ben Barnes Monday announced that he will be a candidate for Governor of Texas in next year's elections.

Barnes announced his decision at a news conference at the State Capitol. The announcement ended speculation whether Barnes would seek the Governorship or run for the United States Senate.

Barnes, at 33, has more than ten years of experience in public office in Texas. He first won election to the Texas House from De Leon in 1960. He was elected Speaker of the House in January, 1965, and was re-elected to that post in 1967, thus becoming the youngest Speaker in Texas history to serve two consecutive terms.

In his first bid for statewide office, Barnes was elected Lieutenant Governor in November of 1968, and became the first candidate in the history of Texas to poll more than two million votes. He was re-elected to a second term in November of 1970.

## Six cases are settled

## Agricultural industries sponsor animal certification programs

A nationwide animal drug certification program sponsored by the agricultural industries has been announced by the National Animal Certification Committee headed by C. W. McMillan of the American National Cattlemen's Association.

Purpose of the program is to assure consumers that the meat, milk and eggs which they purchase will continue to be wholesome and free of unauthorized residues.

The program, notes County Agent Glenn Bragg, calls on livestock producers to certify in writing, when marketing their animals, that they have observed the withdrawal periods and other label directions for animal drugs required by the U. S. Department of Agriculture and the U. S. Food and Drug Administration.

In addition to the assurance given consumers, livestock and poultry producers are also expected to benefit from the

Councilmen discussed the possibility Tuesday night of dividing the farm land into as many as four parcels in the call for bids.

In addition, they also discussed taking bids for one year or five years, with bidders being allowed to bid on either or both time segments.

E. L. Abbott of the Soil Conservation Service in Hondo, reported on an irrigation survey done at the request of the council on some of the farm land.

## Annexation stalled

Although Hondo councilmen agreed at their May meeting to annex a strip of land on the south side of US 90 out to its junction with 173, no petitions requesting annexation have been filed with the city.

The proposed annexation will include land upon which a new motel is under construction at the 90-173 inter-

He said it would be feasible for the city to drill an irrigation well to water a portion of its air base farm land. Estimated cost of drilling the well and putting irrigation pipe in place was \$30,000.

Abbott told councilmen that \$25 to \$30 an acre is not an uncommon lease price for irrigated land.

Councilmen decided to study the proposal further before making any decision.

City Attorney Hugh Meyer told councilmen Tuesday that property owners desiring to be annexed to the city must present a petition requesting the action.

Meyer said he would call one of the principals in the motel corporation and ask for the petition.

In addition to the American Cattlemen's Association, other groups represented on the Committee are the Animal Health Institute, American Feed Manufacturers Association, American Meat Insti-

You may not be familiar with this committee but since it is working on a most important phase of livestock production, I thought you'd like to know about it. Beef, dairy, swine, sheep and poultry producers will be interested. ## Recreation facility considered

An estimated \$5412 would be needed to turn the old gravel pit on the air base into a recreation facility.

That's what city councilmen were told Tuesday night by E. L. Abbott of the Hondo Soil Conservation Service. Abbott had surveyed the site at the request of the council.

For the estimated expenditure, sides of the pit could be sloped and smoothed, the bottom cleaned up and smoothed, the gravel covered with a foot of soil, disced, spread and packed and sealed to hold water.

No action was taken.

PART SEVEN

# Freemasonry

by Yancey Russell

While John Redus continued to serve as W.M. in 1873, Henry T. Renken was S.W.; G. S. Johnson, Jr., J.W.; R. W. Goza, Treasurer; McLe more, Secretary; Metzger, S.D.; L. N. Elam, J.D.; Dillard, S.S.; J. J. Elam, J.S.; Parsons, Tiler. New members were John Birchfield, John G. Brown, and J. W. McGaughey. Total membership climbed to 50.

John Kennedy became W.M. in 1874; Renken served as S.W.; Metzger, J.W.; Rothe, Treasurer; William L. Ligon, Secretary; McLe more, S.D.; James W. Redus, J.D.; G. S. Johnson, Jr., S.S.; Talley F. Burnett, J.S.; Parsons, Tiler. New members were Talley F. Burnett, who was a rancher; Jesse Campbell, and William L. Ligon. Total membership dropped to 43 due to dismissions. The death of George Redus was reported. (Note: Members of the Redus family say he was buried in the Masonic cemetery near the old lodge hall, and that later his body was disinterred and buried in a San Antonio cemetery.)

The same officers served the lodge in 1875, with two exceptions: Talley F. Burnett was S.S. and G. S. Johnson, Jr. was J.S. New members were John O. Brownless, Joe Collins, Ferdinand Niggli, and Otto Solms. The death of W. A. Patterson, an E.A., was reported.

Niggli, was a charter member and vestryman when the Evangelical Lutheran Zion's church was founded in January, 1852, according to the book "Castroville and Henry Castro, Empresario," by Julia Nott Waugh. He was elected sheriff and tax assessor-collector of Medina county in April, 1876, a position in which he continued to serve until August, 1882, when Joseph Ney was elected to succeed him. Fletcher Davis' lodge history said that Niggli later became a U.S. Marshal and was killed in Castroville.

Henry T. Renken was elected

lectured Worshipful Master of the lodge in 1876. Other officers: James C. Sullivan, a new member, S.W.; Dillard, J.W.; McLe more, Treasurer; John C. Sullivan, a new member, Secretary; Rothe, S.D.; Charles T. Race, a new member, J.D.; Talley F. Burnett, S.S.; Charles Scheidemantel, a new member, J.S.; Samuel Parsons, Tiler. Other new members included F. C. Bates, Andrew J. Elam, George W. Goza, M.B. Pulliam, Charles Scheidemantel, and Charles Weimer. The lodge reached its peak in total membership, with 53 Master Masons.

According to Davis, John C. Sullivan was a lawyer in Castroville.

Charter Member Scheidemantel was a charter member of the Evangelical Lutheran Zion's church organized in Castroville in 1852. It was on April 15, 1876 that he was elected county and district clerk, a position in which he served through November, 1879, when he resigned. Davis said that he later was employed by the G. H. & S. A. Railroad as a livestock claim agent, and was deputy clerk under August Kempf, and resided in Hondo until his death.

It has been said by several residents of Medina county that some members of the Scheidemantel family later dropped the first section of that name, "Schei" and became known as the "de Mantel" family, or the Mantel family. This family, however, is not to be confused with the de Montel family.

Davis said that George W. Goza was a rancher who lived just west of the highway bridge over the Hondo. His widow, who survived his many years, eventually sold the ranch, purchased a home in Hondo, where she resided until her death.

Again in 1877, Renken was W.M.; Goza, S.W.; Metzger, J.W.; Niggli, Treasurer; Scheidemantel, Secretary; Henry Kueck, a new member, S.D.; Burnett, J.D.; Sullivan, S.S.; McLe more, J.S.; August Hornung, a new member, Tiler. Other new members listed were Joe Matthews, William E. Race and W. D. Thompson.

August Hornung had served as associate county judge in 1874. Davis said Hornung moved from Castroville to Hondo in 1901 and served for many years in the double capacity of office assistant, or deputy, to both the sheriff and the tax assessor.

The first mention of Henry Kueck in commissioners court records appeared on February 10, 1880, when the court accepted his bid of \$96.50 to place blinds on the windows of the lower story of the courthouse, and a double door on the courthouse stairs. Davis said Kueck moved from Castroville to Hondo as one of

the town's first settlers. He owned a quarter section of land, the Southeast corner of which was where the Speece home later stood. He opened the first lumber yard on grounds later occupied by the Alamo Lumber Company, and built his first home on the later occupied by Mrs. Callie Bendele's residence.

Moved to Castroville Evidently it was during the year 1877 that the lodge voted to move from the old stone building on the Hondo to the town of Castroville, and also voted to change its name.

In his address at the 42nd Annual Communication of the Grand Lodge of Texas in Houston in December, 1877, Grand Master Marcus F. Mott said that J. H. McLeary, District Deputy Grand Master of the Sixth District, reported that Hondo Lodge No. 252 "has recently moved from New Fourt in Medina county to Castroville, the county seat. . . and Brother McLeary predicts for it a new career of usefulness in its new location, and a speedy recuperation of its financial and numerical condition."

The report of the Committee on Petitions said: "Hondo Lodge No. 252 asks to be permitted to change her name and assume that of Medina Lodge No. 252. Your committee are not disposed to find fault with this fancy of said lodge as to her name, and are willing to let said lodge wear the 'new name' and recommend that petition be granted."

The Koch Ranch southwest of D'Hanis received three inches of rain Monday and Tuesday leading the area with rain gauge readings for the two days of scattered showers.

Other readings for the welcome, though not drought-breaking, moisture are: Hondo, .28; Rancho Chico, .80; Russell Chapman, 2; Jake Schuehle, 1; John Zinsmeyer, .60; T. Wheeler, 1.50; Geo. Muennink, .60; Wood Chapman, .30; Tom Hollmig, .30; Jim Amberson, 1.25; H. Weynand, 1.25; Bonnard Rothe, 1.25; August Timmerman, .40.

## SS 'extra' checks coming this month

Most social security beneficiaries will be receiving an "extra" check this month according to Roy L. Swift, manager of the San Antonio social security office. The check is due about June 22.

Earlier this year Congress passed a 10% increase in social security benefits retroactive to January 1. The check received about June 3 should have reflected this increase for the month of May, Swift stated.

The "extra" check will

represent the 10% increase for the months of January, February, March and April.

This "extra" check will be issued automatically. Beneficiaries do not need to take any action. For further information, contact your social security representative when he is in your area. Your representative, Mrs. Fry, will be in Hondo at the Council Chamber of the City Hall, Monday, June 21, at 8:45 a. m.

## That's all she wrote

by Edna McDade

Although the calendar sets summer's arrival date as Sunday, June 21, reliable sources have informed me that Hondo couldn't wait to try on high 90 temperatures for size.

It would be unkind of me to quote the local cool so I shall keep my cool and refrain from doing so.

\*\*\*

According to local tradition, I'm told that "Corn grows knee-high by the 4th of July" -- not to be confused with the variety that grows "as high as an elephant's eye" in Oklahoma where I lived for two enjoyable years.

Abundant rains have kept the corn rows really stretching but perhaps in a state of corn-fusion as to what is now considered "knee-high" what with all the hassle over helmets.

"Kneesies" seem to be the in-fashion now, according to the ads at least one of which advised "Hurry, hurry to get your hot-pants if you prefer 'em, or your minis, before the kneesies take over!"

The ups and downs of hems are for those allergic to the whims of fashion. I developed a comfortable immunity long ago!

\*\*\*

On the day before July 4th, I happen to remember that DEBORAH, winsome daughter of JAMES and MARY ANN NEHR RUBY of D'Hanis will be three years old.

When I met her earlier this year at WIN-DROW's DRUG, while she was helping her mother and grandmother, MRS. W. A. NEHR, with the selection of a candy bar, Deborah held up three fingers to show me how old she "was going on".

Happy birthday wishes to her -- and one to grow on!

\*\*\*

What government-ese used to designate as "proper nomenclature" for every little old thing in the business of mail censorship helped to make me at least semi-semantics conscious.

I have found myself at the hackneyed "loss of words" to describe the new (to me) wonders of Nature that surround me here.

In re-reading some of Walt Whitman's prose, I found this to make me feel better about the whole thing: "You must not know too much or be too precise or scientific about birds and trees and flowers and watercraft; a certain free margin, and even vagueness -- perhaps ignorance, credulity -- helps your enjoyment of these things".

And, wasn't it Will Rogers who said something like: "We are all ignorant, only on different subjects"?

\*\*\*

When the Pennsylvania Herpetological Society held its annual show and auction sale recently, a volunteer auctioneer from Lancaster sold more than \$1000 worth of snakes and turtles. Included were a 6-foot boa constrictor (\$40) and a 20-year old snapping turtle (\$10.50).

This information is here supplied with the thought that it might give our public-spirited volunteer auctioneers an idea for our 1972 Museum Day auction.

If you happen to go sailing along old Hondo Creek or the Verde, keep a sharp eye out for boa constrictors and snapping turtles, yet!

\*\*\*

Scouting is "big business" in Lancaster County and the many BS troops enjoy the full support and cooperation of their various communities.

Presently, 4000 area Scouts have undertaken a project to "Save the Conestoga".

This week, Cubs and Scouts began the clean-up of their half of the stream's 55-mile length and news pictures showed amazing results of their efforts. Business and industry supplied trucks and drivers to haul off more than 50 loads of pollution-causing debris.

The drive will run through Nov. 30 and the Scouts have pledged themselves to get the job done.

\*\*\*

For the 4-H horse show which the 6/3 Anvil Herald reported would be held 6/12, I have been wishing every success.

4-H horse clubs are very popular in this section. The latest count indicated that more than 6,500 boys and girls are giddy-yapping with great enthusiasm.

Might be less in number over our way but none the less enthusiastic, I'll bet -- or should I "venture to say"?

## Parents! Know the Drug Threat

The child you save may be your own!

Today's Subject: The Appeal of Drugs to Teens

Here are some of the reasons given by youthful drug users for taking drugs, in a series of national surveys of young people in the high school-college age groups:

1. It is a way of "hitting back" at parents -- getting even with them for the 1001 things parents do and make their children do in the growing-up process.
2. Taking drugs is a means of feeling love -- love in general terms, not physical necessarily -- drugs are a way of returning to the basic fundamentals of life.
4. Some students said they felt drug experimentation was in this modern day, a means and part of growing up.
5. Many said words to the effect that it was enjoyable to see their parents get upset about something genuinely. In short, taking drugs seems a method of telling the "old man" to go to hell with his hypocrisy.
6. There were those who gave the excuse that drugs were a release from daily tensions and the heavy demands of school work and offered relief from frustrations and the feeling of defeat!

Naturally, to combat the drug problem, we must know facts about drugs, but perhaps even more important is knowing some of the basic reasons why youngsters are using drugs in this beautiful land of opportunity we call America. The above reasons are only a small fraction of the entire list, I am sure, but will give us all food for thought within our own personal family situations.

In trying to analyze drug misuse we must certainly bear in mind that children today are raised in a chemical society. They have come to know, from infancy, they can go to the doctor and get a shot for this ailment and a pill for that; it follows then that there is a good reason why children have built the impression they can be doctored chemically for any physical or emotional problem. And, let's not forget the influence of t.v. Wouldn't a child easily come to feel that there is a chemical cure for everything by watching t.v. commercials?

It has been reported that some of the best children, the articulate child who brings home good grades and may often be a student body officer... even these youngsters are high on the list of drug abusers. So then, another reason for trying drugs comes to the front: to be one of the group, to be accepted as equal, to be recognized as an un-square.

Some experts in the field of drug abuse say that it is time for the "generation gap" and all such nonsense to come to a dead halt. In other words, now is probably the best time for parents to take the reins once again and find out what is going on among the children. Let's begin to recognize the signs of a situation developing into a serious problem BEFORE it happens, instead of placing ourselves in the position of simply saying, "I'm sorry" after it has happened.

There are many professional people, doctors, ministers, family counselors, and your public services, that stand ready to help you solve problems BEFORE they become catastrophic in nature. Don't wait too long... that child you save may be your own!

Next week there will be another article for your consideration. Thanks for being with me.

## Renkens win at golf tourney

It seems the annual Earl V. Riley Membership Golf Tournament became a family affair this past weekend at the Hondo Golf Course.

The Renkens, Milton, Harvey, Mrs. Ann Jones, and their cousin Richard Schott, just played good enough golf to

walk away with many of the top honors.

John Jennings took medalist honors with a 159.

Flight winners and runners up included:

Championship Flight: Milton J. Renken, 145; R. W. Landers, 146; First Flight: H. H. Renken, 147; Paul Glowka, 147; Renken won with a birdie on the first hole of sudden death playoff.

Second Flight: Ray Cortez, 141; Jack Gruber, 144; Third: L. D. Williams, 144; Ralph Hauger, 151; Fourth: Richard Schott, 142; Felix Reyes, 146.

Harvey Renken and Jack Gruber tied for lowest putts at 56 each and had a putt-off

which Gruber won on the second hole.

Gruber hit the longest drive Saturday and Jennings hit the longest drive Sunday.

Women

Championship Flight: Ann Jones, 131. She also won putting trophy with 64 putts; First Flight: Nancy Sanders, 150; Second: Dorothy Kwapich, 156.

Evelyn Winkler hit the longest drive Saturday and Ann Jones accomplished the feat on Sunday.

On hand to present the trophies was Col. Earl V. Riley (Ret.) of San Antonio. Back in 1953 Col. Riley commanded Hondo Air Base and at that time built the golf course. The tournament was named for him.

## Ping pong tournament set at Lacy

The summer recreation program started this week with over 100 children attending the first day. It is held each weekday morning from 9 to 11:15 at Lacy gym.

The first tournament will be ping pong. Ribbons will be awarded to first, second, and third place winners in each age group.

Arts and crafts participants finger painted and made pot holders this week. Next week they will make plaster of paris plaques - a favorite project every year. The fee is only 50¢ for the entire seven weeks of recreation.

Encourage your children to attend recreation. It is fun, as well as educational. All children must have already attended the first grade to be eligible for recreation.

## Eagles win 12-7 over Boerne

Trailing for five innings Sunday the Hondo Eagles overcame a 6-0 deficit to down the Boerne Eagles 12-7 at Pruned American Legion Park.

Boerne pitcher Freddie Banon was coasting along with a 3-hit shutout for five innings but the Hondo nine exploded for eight runs to send him to the showers.

Maria Garcia started on the mound for Hondo and had a shaky first four innings in which he allowed eight hits and six runs. Somehow he pulled himself together and

managed to limit Boerne to 3 hits and one run the last five frames.

Slick-fielding shortstop Richard Hernandez laced three singles to join Eddie Zerr who came up with a single and two doubles. Johnny Miranda chipped in with a towering homerun over the imaginary right field fence (this marked the fourth such blast over this

area in the history of the park). Sunday the Eagles travel to Fredericksburg to meet the Cubs, who are leading the way in the Hill Country League.

## Bandera slates annual rodeo
